Professional career

Data Scientist | BMW AG via Spiegel Institut Mannheim

Nov. 2018–Jun. 2019

Promoted evidence-based business decision making by contributing data-driven insights in projects of 1–4 months; responsible for data collection (SQL DBs, APIs, or scraping), preparation, analysis, visualization, and presentation of various types of data (e. g., technical, geospatial, customer)

Role: Member of a team of five in the business strategy department

Lecturer | FOM Hochschule für Oekonomie und Management

Sep. 2018–Sep. 2019

Course: "Research projects in business psychology" (syllabus: scientific research process, methods, thesis preparation)

Consultant/Research Associate | Chair of Ergonomics, Technical University of Munich

Jul. 2012–Oct. 2018

Generated data-driven research findings to support product/business decisions or to improve processes as well as consulting by carrying out project management, study design, data collection, analysis, and presentation of results in several 6–24 months research projects in cooperation with e. g., BMW AG, Hyundai Motor Company, Robert Bosch GmbH

Role: Either leader or team member of teams of up to six members

Degree: Dr. phil. (PhD; grade: summa cum laude)

Awards: Joseph-Ströbl-Förderpreis 2019 (for dissertation thesis)

Thesis/research: "Individual Differences in Human-Automation Interaction: A Driver-Centered Perspective on the Introduction of Automated Vehicles"; published and reviewed articles in international, peer-reviewed journals (list: bit.ly/32kw71Q), talks on international conferences

Lectures: Design of Experiments and Statistics 1 + 2, practical courses on Matlab and usability

Student research assistant, Internships

2009–2011

E. g., at Audi Accident Research Unit, Regensburg

Skills

R (e. g., mlr, caret, data.table, ggplot2)

Python (e. g., scikit-learn, PySpark)

Inferential statistics

SQL

Spark/Hadoop, Study design, Tableau, Git, AWS, Matlab, SPSS, JASP, LaTeX, Palantir Impact, Markdown

Educational career

Psychology | University of Regensburg

Oct. 2006–Apr. 2012

Degree: Diplom (M. Sc. equivalent; grade: 1.0 ≙ A+)

Minors: Business administration, international rhetorical competence

Abitur/GCE A-Levels

1997–2006

Carl-von-Linde-Gymnasium, Kempten

Foreign languages

English (fluent in spoken and written form)

Spanish (A2), French (beginner), Japanese (beginner)

Professional training

Machine Learning:

- Udacity Data Science Nanodegrees "Introduction to Machine Learning" and "Data Scientist" (2019)
- "Machine Learning & Data Mining with R" (Ludwig-Maximilians-Univ. München, 2019)
- Coursera courses "Practical Machine Learning" (Johns Hopkins Univ., 2019; grade: 100 %), "Machine Learning" (Stanford Univ., 2018; grade: 96.1 %)

Statistical methods:

- Potsdam Summer School on Statistical Methods for Linguistics and Psychology (Univ. Potsdam, 2017)
- "Improving your statistical inferences" (Coursera course of Eindhoven Univ. of Technology, 2016; grade: 100 %)
- 6th Annual JAGS & WinBUGS Workshop Bayesian Modeling for Cognitive Science (Univ. of Amsterdam, 2016)
- "Bayesian Data Analysis" (Global School in Empirical Research Methods, Univ. of St. Gallen, 2015; HSG grade: 5.5 ≙ very good)

Miscellaneous:

- TUM courses "Using R for Statistical Data Analysis 1+2", "Introduction to Matlab" (2014–2015)
- TUM course "Interaction Prototyping" (HTML5, CSS, JavaScript, 2013)

Munich, October 24th, 2019
